In the study of the order 5 territories for industrial parks in various municipalities of the Tyumen region

Experts say

Vladimir Putin,Russian President

At a meeting with the Governor of the Tyumen region Vladimir Yakushev on May 13, 2014 Russian president highly appreciated region economic and social situation:

I think that not my approval, but your effective work should provide additional impulses in development of the region. It should be noted, of course, that Tyumen region is the leader in terms of many indicators.

I do not mean now the presence of hydrocarbons, which in other regions don't have, but also for other activities: in the economy, in the social sphere, in the development of the real sector of the economy you have a very good performance. So, of course, I will support you.

"Getting ready for a trip to your region, I looked through the statistics and I am really happy for the work that is done. I want to congratulate you on the successful economic development, solution of social problems, the volume of housing and attracted investment"

Valentina Matviyenko, Chairman of the Federation Council of the Federal Assembly of the Russian Federation during a visit to Tyumen April 23, 2014

Valentina Matviyenko, Chairman of the Federation Council of the Federal Assembly of the Russian Federation

Sergei Naryshkin, Chairman of the State Duma of the Federal Assembly of the Russian Federation

At the II Investment Forum in Tyumen "Investments. Industrialization. Region. Logic of breakthrough 18 February 2015:

Tyumen region is attractive for foreign investors and for Russian companies. The results of 2014 are positive, despite the difficult operating conditions of the economy and the social sphere.

Andrei Nikitin
General director of the
Agency of Strategic
Initiatives

Tyumen region pays great attention to the creation of favorable conditions for business development. The region has a lot to gain, and some administrative decisions we have included in the list of the best practices and recommended to scale in other regions of Russia. So, one of the most highquality client-oriented regulations accompanying investors based on the principle of "one window" is developed and applied in Tyumen region. In addition, I would like to note Investment Agency of the Tyumen region with its network of branches in the municipalities of the region. In our opinion, its a very competent tactic, because at the local level, the investor decides to most of their questions. Much remains to be done, but I'm sure that if you want to, everything will turn out. And the crisis in any case should not reduce the activity of the regional authorities to reduce administrative barriers, simplifying the life of the business. On the contrary it is a good time now to move faster.

Michael Harms, chairman of the Russian-German Chamber of Commerce

Philippe Pegorier, Chairman of the Board of the Association of European Businesses

Tyumen region remains an attractive region for investors. Over the past few years there have been discovered more than twenty large enterprises and some are German companies. It is very important that the regional government is actively working to attract investment and support each investment project in the region. Companies appreciate the contribution of the authorities in the development of their business. It is obvious that activities such as Tyumen Investment Forum are needed to identify the problems in the current economic situation and to identify possible ways to solve them

"In recent years, the Tyumen region is one of the most active in attracting investments from all regions of Russia", - said the chairman of the Association of European Businesses in Russia, Philip Pegorier.

Forms of state support, operating in the region, received his positive assessment. It is the establishment of preferential taxation procedure within the amounts payable to the regional budget, reimbursement of expenses of investors for infrastructure-engineering arrangement or industrial site preparation, as well as the provision of budget investments in international projects.

"European Business Association has close and friendly relations with the government of the Tyumen region. We organize joint business missions of European investors in the region through the presentation of investment projects "

People say

At the opening ceremony of the new Novatek Scientific and Technical Centre in Tyumen, on 25 February 2014: "Tyumen was and remains the intellectual centre of the vast West Siberian oil and gas province."

Leonid Milchelson,
chairman of
Novatek

At an investment forum in Tyumen "Investments and industrialization" January 29, 2014:

"We have lined up a good relationship with the local authorities, and Tyumen is definitely among the most favorable regions for business and we are now seriously considering the issue of the transfer of the head office from Moscow to Tyumen"

At the meeting with the Governor Vladimir YAKUSHEV, on 25 February 2014:

"The city is in the process of construction; it is growing. The Tyumen region has achieved impressive results in all the key indicators of economic development.

I am impressed by the policy of constructive protectionism pursued by the Governor. Having been here, I know that all positive feedback about the region is not a fairy tale. I believe that the project of the company will be successful in the city. There are good prospects for expanding cooperation with the Tyumen region."

At the 2014:

Nikolaus KNAUF, coowner of the international group of companies KNAUF

Andrew Kozitsin, CEO "UGMK Holding"

Alasdair Shiach, president of Baker Hughes Russia and Caspian

On the investment forum in Tyumen "Investments and industrialization" January 29, 2014:

"The region is developing production capacity, demanded economic activity in the territory to create new jobs, which is the best remedy for the crisis. Other parties should pay attention to the approach that uses the Tyumen region. Economic development and territories - the responsibilities of each of the region at all times. Each region has its own advantages: geography, minerals, timber and other. They need to identify and offer the investor. The experience of the Tyumen region shows that government support measures aimed at addressing these issues, is not so ruinous for the budget."

At the solemn opening ceremony of "UGMK-steel" in Tyumen July 24, 2013:

"But not only the money will support from the government of the Tyumen region I would like to mention. We work in the fourteen regions of the country and I can say here, as elsewhere, are able to organize the work with the investor. We have a huge administrative uphold, worked harmoniously"

At the opening ceremony of the Baker Hughes plant, on 22 January 2014:

"I express my special gratitude to the Governor of the Tyumen region, Vladimir V. Yakushev and the employees of his administration, whose efforts are aimed at development of the region's economy. They have created ideal conditions for the production companies such as Baker Hughes to ensure all needs and requirements of our customers."

Ensure your future by investing in Tyumen region!
