

## LETTER OF INFORMATION

**GYP SOPOLYMER TM ®** is already more than 60 years old. One of our main competitive advantages is our own raw material base. We are a turnaround enterprise (mining, handling, finished product release, our own laboratories for formulation, sales, logistics). **GYP SOPOLYMER TM ®** makes the top three in production of the dry construction mixtures and takes 6% of the Market in Russia with annual turnover of 3 billion c.u.

At present our products are on sale in 60 Regions of the Russian Federation, also in Kazakhstan, Kirgizstan, Tajikistan, Uzbekistan.

**GYP SOPOLYMER TM ®** produces high-quality certified ecological products:

- ✓ **Plaster** - high-strength gypsum building plaster;
- ✓ **Stucco and finishing plaster** for the different segments of customers;
- ✓ **Self-levelling floor**;
- ✓ **Gypsum based adhesive plaster**;
- ✓ **Cement based adhesives GARANT TM ®** - fully complying by their key specifications with the leading marker counterparts;
- ✓ **Plaster blocks GYP SOPOLYMER TM®**;
- ✓ **Plaster boards** – one of the best products of this type on the Russian Market.

All products are certified (voluntary certification) POCC RU.

For sales and products promotion, our team of professionals can offer you the best possible way for marketing support, will provide you with point of sales materials and transport AD of **GYP SOPOLYMER TM®**, and will hold a hands-on seminar for your managers!

The company is ready to take part in exhibitions and conducting business missions to discuss aspects of possible cooperation on foreign soil. For more information about our Company please visit our web-site: <http://gipsopolimer.ru>.

**Shipment by Road and Rail, individual customer approach, flexible pricing policy, favourable commercial terms - all these factors create a solid base for effective and mutually beneficial cooperation.**

---  
Yours faithfully,
